

Dear Stakeholders,

Happy EOFY! At this juncture, I believe it is apt to celebrate the tremendous efforts of all superannuation transaction network participants in managing the changes brought about by COVID-19, as well as the heightened cyber risk environment. Well done everyone!

Speaking of super and cyber, we were delighted with the results of our the **2nd annual STN Cyber Security Incident Response test**. [You can read all about it in Money Management here](#). I would like to thank all Gateway Operators and observers from ATO, APRA, FSC and ASFA for their active involvement, as well as our partners Deloitte for facilitating an interactive event. Findings from the day will be collated and shared during August with our stakeholders.

Some Board changes this month as we **farewell David Field**. David has been involved since the design days of GNGGB and has always been a staunch supporter of the inherent value of the organisation. We wish David all the best with our most heartfelt thanks for his years of passion and commitment.

We welcomed **Chris Denney** to the Board this month representing GATE, and from 1 July we **welcome Ian Gibson** back to the Board, representing ABSIA.

Last week GNGGB attended an industry forum with government agencies on how best to **expand our network of threat and fraud intelligence sharing**. Thank you AIST for facilitating this conversation. We are encouraged by the

discussions and the opportunity to work more closely together on this important initiative. Stay tuned for more developments over the coming months.

We have moved! We are now at Level 26, 44 Market Street. Please drop by and see us when you are in the neighbourhood.

GNGB is here to support Gateways and their clients. Please don't hesitate to contact us if we can assist in any way.

Kind regards,
Michelle
